

Hullbridge Road / Rawreth Lane improvements

As part of planning conditions for the development of properties on the Maylons Farm Development granted by Rochford Council Planning, improvements to the local highway are required to relieve congestion at a bottle neck, affecting motorists in the area.

To ensure disruption is kept to a minimum the works will take place in phases with appropriate traffic management for the works taking place to protect the safety of the public and workforce.

Preliminary works and site clearance has started and there will be no carriageway restrictions whilst this is carried out. Main construction work on a new larger roundabout will begin in April 2021 and is anticipated to be completed in June 2021. During main construction works road closures will be required and traffic management will be adjusted according to the phase.

The developer will send letters to residents/businesses in the local area providing further details. Further information can be found on the [webpage](#).

We will endeavour to keep you updated as the scheme progresses.
